March 26, 2020

Dear Valued Customers,

Last week California Governor Newsome issued a **Stay at Home** order for all California residents in an effort to stop the spread of COVID-19.

All individuals living in the State of California are to stay home or at their place of residence except as needed to maintain continuity of operations of the federal critical infrastructure sectors, as outlined at <https://www.cisa.gov/identifying-critical-infrastructure-during-covid19>.

J & L Custom Plastic Extrusions, Inc. serves and supports customers in one or more of the 16 critical infrastructure sectors vital to the United States and will continue to operate. We will continue to support our customers with the products they require and when they require it. We take pride in the fact that we provide products that support the health and safety of Americans during this time of crisis.

Our critical supply chains continue to function as normal and without disruption. We will continue to follow guidance from the **CDC** (Centers for Disease Control and Prevention) and exercise the recommended precautions and practices to keep our employees and customers safe while continuing to provide the products you need to run your business.

Best regards,

Edwin Woo
President, J & L Custom Plastic Extrusions, Inc.
